

EOPS

Mark Del Campo

Submitted by Noel Gomez

For Mark, school began to get challenging during junior high school and high school. He shared that he did not know how to learn or how to use hard work to achieve a goal. It seemed as if he had no future.

Unfortunately, Mark dropped out of school and began abusing drugs to cope with his life. In 2018, Mark enrolled in the SBCC Transitions Program and successfully completed his courses during the Summer term. Since then, Mark was able to reach the President's Honor Roll six times while majoring in Engineering. This Fall, Mark will be attending San Diego State for Aerospace Engineering. Mark is thankful for having EOPS be a part of his education and success, for assisting him in picking his classes, finding childcare for his daughter, and paying for textbooks. Mark will be the first person in his immediate family to graduate from college and with a clear path and goals ahead of him. In the future, Mark hopes to find ways to give back to SBCC and EOPS!
